

Ayush Anand

Frontend Developer — Entry-Level — React.js — Next.js — JavaScript — Firebase

anandayush573@gmail.com • +91 8840121544 • LinkedIn • GitHub

Education

B.Tech in Information Technology

2022 – 2026

KIET Group Of Institutions, Ghaziabad

Technical Skills

Frontend: JavaScript (ES6+), React.js, Next.js, State Management (React Hooks, Context API), HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion, GSAP, Responsive Design

Backend (Working Knowledge): Firebase (Auth, Firestore), Rest APIs, Inngest

Tools: Git, GitHub, VS Code, Figma, Canva

Experience

Frontend Developer Intern — Calendar Pro

Feb 2025 – Mar 2025

Next.js, React, Tailwind CSS, Firebase

- Built and optimized **SEO-friendly components** with Next.js, increasing website visibility and load speed.
- Integrated **Firebase Authentication** and Firestore, cutting login delays by 50% and securing user sessions.
- Created reusable, **responsive UI components** in Tailwind, collaborating in an **Agile** environment to reduce redesign effort.
- Upgraded the dashboard with dynamic **ticket workflows**, simplifying task tracking for 1000+ users.
- Added robust **error handling and validation**, lowering bug-related support requests by 30%.

Projects

College Society Attendance System (*Next.js, React, Firebase*)

Live

- Developed a real-time **attendance management system** with QR code-based check-ins, reducing manual effort by **70%**.
- Integrated **Firebase Authentication** and **Firestore**, improving data security and retrieval efficiency by **65%**.
- Implemented a **scanner dashboard** with camera preview, increasing QR scanning accuracy by **60%**.
- Enhanced **admin control features** for task assignments, event tracking, and attendance analytics.

Blog Platform (*Next.js, Firebase, Static Rendering*)

Live

- Implemented **secured blog authoring** with **Firebase Authentication** and CRUD-based content workflows, eliminating **100% unauthorized access**.
- Leveraged **static rendering** for public pages, boosting page load speed by **30%**.
- Improved **deployment reliability** through environment-based configurations, reducing production failures by **90%**.

Portfolio Website (*Next.js, Framer Motion, Tailwind CSS*)

Live

- Enhanced **user experience** by **60%** using **Framer Motion** for smooth, responsive animations.
- Boosted **engagement** by **50%** through well-structured interactive sections and clear navigation.
- Achieved **100% mobile responsiveness** and implemented **accessibility best practices** for inclusive UI design.

Certifications

Google Cloud Study Jams — Cloud Computing Fundamentals
